

FOUNDRIES, FORGES & MACHINING

Since 2007, as a Franco-Indian company, we have been developing and manufacturing machined castings and forgings at highly competitive prices, delivering them to our customers throughout Europe.

INDUSTRIAL EXPERTISE

Foundries, forge and machining of complex metal parts.

SUPPLY CHAIN FRANCO-INDIAN

Logistics platforms in France and India enabling just-in-time deliveries throughout Europe.

CUSTOMER SATISFACTION

Tailor-made solutions, rigorous quality control, and a commitment to sustainability.

WE ALSO SUPPLY

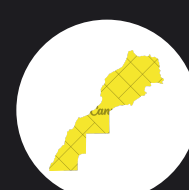

- Manufacturing and supply of mechanical parts produced through various processes: machining, cutting, stamping, sintering, plastic injection molding, bending, assembly, welding, and gear cutting...
- Expertise in a wide range of production processes: laser and plasma cutting, electrical discharge machining (EDM), 5-axis machining, gear cutting, balancing, bending, rolling, and welding (spot, arc, MIG/MAG, TIG), as well as plastic processing.
- Heat and surface treatments: quenching, tempering, induction hardening, zinc plating, zinc-nickel coating, anodizing, nitriding, and electrophoretic painting...
- Comprehensive quality control and testing: metallurgical testing, radiographic inspection, ultrasonic testing, salt spray testing, leak testing, and other specialized inspections.
